Request Description

Short Description : N/A

MCE requests all final reports submitted by the United States Geological Survey (USGS) to EPA Region 7 regarding the West Lake Landfill Superfund site in St. Louis County, MO. EPA Region 7 waited nearly 6 months to release the USGS report (submitted to EPA in November 2013 by the USGS and released by EPA Region 7 in May 2014). The USGS report submitted to EPA Region 7 in November 2013 was a review of the report submitted to EPA Region 7 in March 2013, authored by Dr. Bob Criss of Washington University in St. Louis.

MCE is concerned other USGS reports may be held up unnecessarily that will add value to the understanding of site conditions at the West Lake Landfill.
